EEE+ GrandCentral: Your Canvas Starting Point

The screenshot shows the top navigation bar of the Canvas LMS interface. It contains three items: 'My Canvas Course Spaces' (highlighted with a blue background), 'My Sandboxes', and 'Syllabus Browser'. Below the navigation bar, the page title 'My Canvas Course Spaces' is displayed. Underneath, there are two tabs: 'Summer' (which is underlined) and 'Fall'. A blue button labeled '+ Create Canvas course space' is visible at the bottom of the page. Three orange arrows point to these elements: one pointing to the 'My Canvas Course Spaces' link, one pointing to the 'Fall' tab, and one pointing to the '+ Create Canvas course space' button.

1. Navigate here

2. Select term

3. Click here

Note: A Canvas course space must be requested via EEE+ GrandCentral before it will appear in Canvas.

One-on-One & One-off Canvas Assistance

Purpose:

- Help faculty new to Canvas get started
- Answer questions
- Troubleshoot issues
- Suggested practices

Types of support:

- Telephone & email
- Phone: 949-824-2222
- Email: eee-support@uci.edu
- In-person appointments available @ MSTB

Instructor Evaluations

Two ways to evaluate your teaching:

1. Mid-term evaluations, initiated by you anytime
2. End-of-term official evaluations are handled by the department
 - a. Online through EEE Evaluations (most common)
 - b. In-person during class (less common)

Research Cyberinfrastructure Center

RCIC is a partnership between OIT & Office of Research

How RCIC helps faculty

- Access to experts who specialize in high performance computing
- They administer the systems so you can focus on your research

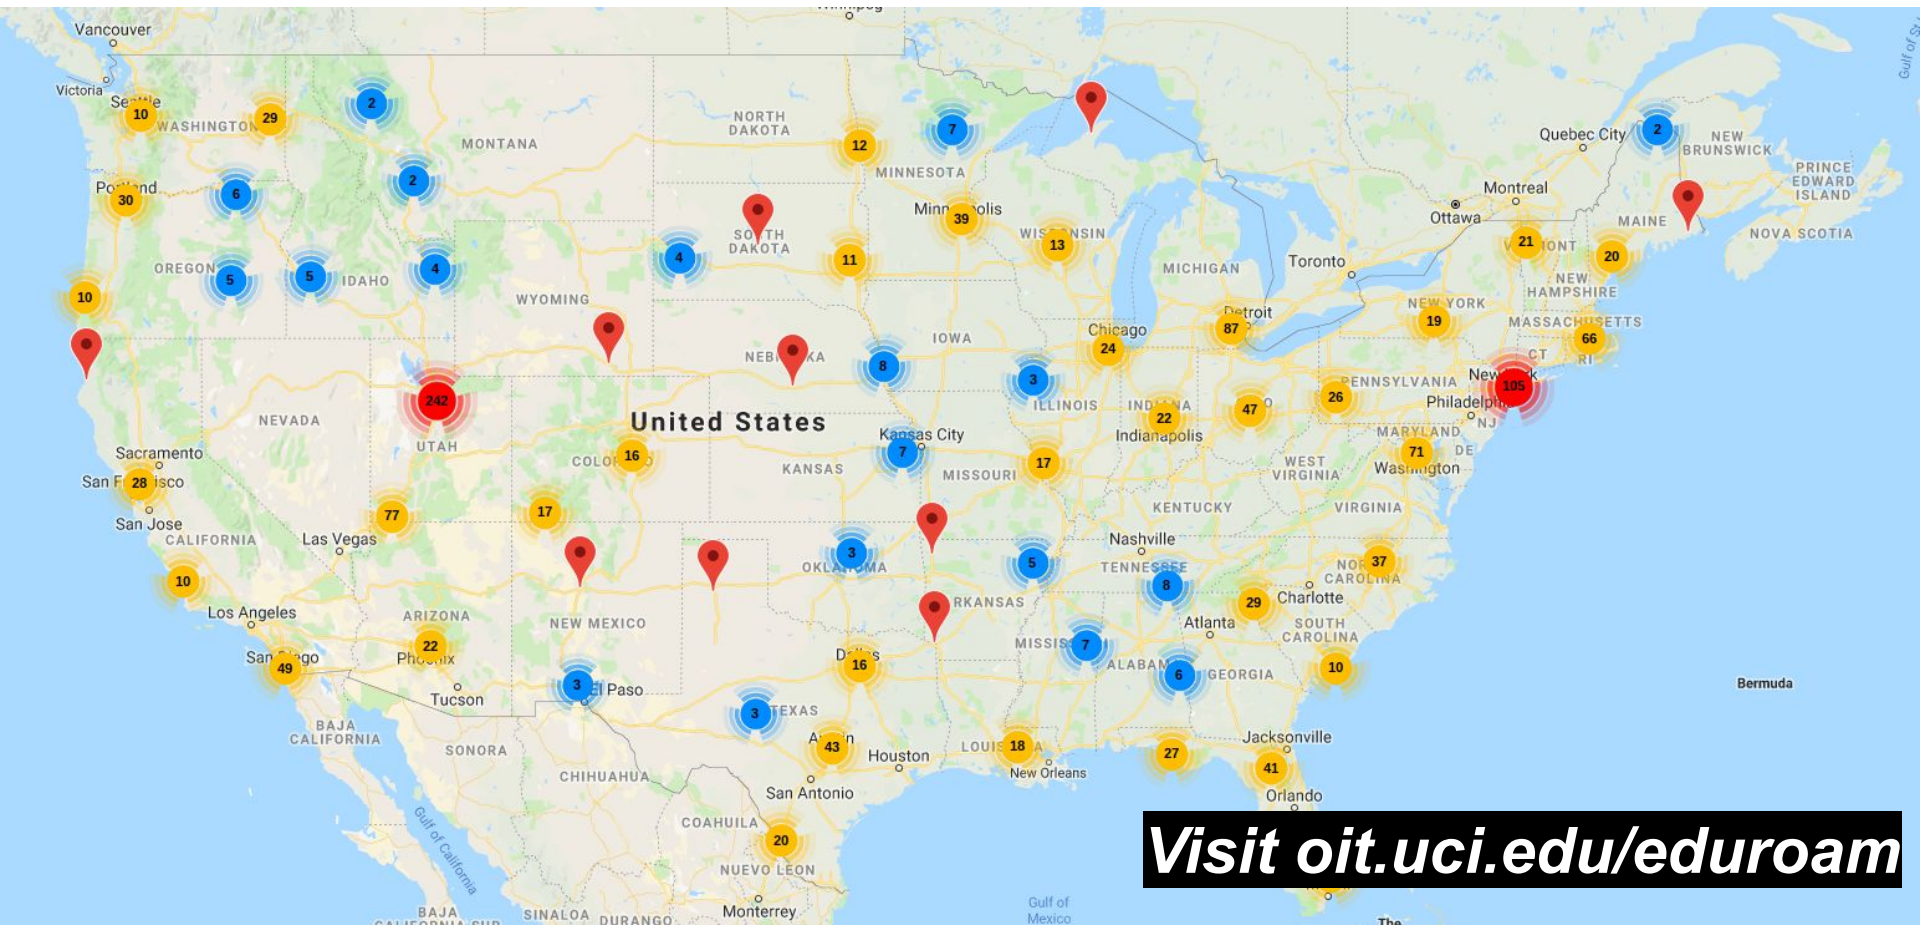

Services

- High Performance Computing Cluster (HPC)
 - Available to researchers to use excess computing capacity
 - Dedicated computing hardware is available for purchase
 - Next: HPC 3; currently in proof of concept of infrastructure stage
- Campus Research Storage Pool (CRSP)
 - Highly reliable, secure storage. Multiple petabytes of networked storage capacity
 - PIs receive 1TB free and \$60/TB beyond that

Visit rcic.uci.edu

Eduroam: Wifi Access at Other Universities

- Connect to wifi when visiting universities across the U.S. by setting up Eduroam on your laptop and mobile devices **before you leave UCI.**

TechnoExpo - October 9, 2019 10am - 3pm at Student Center

Example Sessions:

- Supporting Student Success with COMPASS
- AP Recruit: Simplifying Academic Hiring
- Campus Research Storage Pool
- Improving Your Canvas Experience

Example Exhibits:

- Faculty Hub for preparing for review
- The High Performance Community Computing Cluster
- Lightpath, UCI's dedicated research network
- Electronic Research Administration: tools for administering your research
- UCI Libraries: technologies that support UCI faculty research
- AP Recruit: tell us what you thought of the application process
